central

Information Guide

Based in the City of London, Grace Central is designed to not only train its own members but also to be a resource for training members from other ministries who are seeking to grow in grace. The modules are essential teachings for anyone serious about developing and strengthening their faith and enriching their life in Christ – if you sense that it is time for you to accelerate your growing in grace then this could be the ideal programme for you.

Christian education, or rather, educating Christians has always been the very heartbeat of The Grace Project. Since our launch in 2000 with our Full- and Part-Time Programmes, we have been able to train hundreds of people in the principles of the New Covenant. Consequently, it is with a sense of genuine and justified excitement that we enter the second year of our latest initiative – Grace Central.

The play on words in the name of the school is significant both in terms of articulating the school's ethos and hinting at its geographical location. As a result of a rigorous and prayerful review of The Grace Project's modus operandi, it had become clear to us that we needed to clearly delineate between our Pastoral mandate as a church and our Teaching mission. Thus, we have reorganised The Grace Project in a new matrix which we believe will facilitate its long term growth and the personal development of the entire community.

At the heart of the new work is Grace Central which is both the teaching portal and the hub of The Grace Project. The ethos of the training ministry is to teach students how to think rather than what to think whilst at the same time, equipping them for a life of effective service.

Why not prayerfully consider being part of this exceptional teaching programme for the coming year?
